

UNCLE SAM

Paints: Delta - Ceram-Coats

White

Old Ivory

Santa's Flesh

Nightfall Blue

Opaque Red

Black

Raw Sienna

14K Gold

Directions: Paint top 3/4 of hat Old Ivory. Also bottom half which will be the trouser area.

Coat: Nightfall Blue. Bring to "V" in back to make tails. Hatband is also Nightfall Blue. Paint cuffs of coat Old Ivory.

Face and Hands: These are Santa's Flesh.

Vest is Opaque Red. Stripes on Pants are Opaque Red all the way around.

Hair and Beard: These are white. Fill in eyes with white. Add Nightfall Blue iris, black dot with stylus for pupil. Outline eyes using .00 line brush in black. *** Shade around hair on face with Raw Sienna. Float Raw Sienna around the edge of coat. Tint cheeks (dry brush) with Opaque Red. (If you prefer, you can use lipstick with a q-tip. Be careful with this as there is oil in lipstick and your sealer might not adhere properly.)

Add 14K Gold on front of hat, on cuffs of coat and 2 buttons on the back of the coat where it makes the "V".

*** Mix white with a touch of black and add detail to the beard and hair. Remember that Uncle Sam does not have a moustache -- he has a goat-ee.

Spray (or brush) with sealer and enjoy. Remember, each gourd is an individual and your Uncle Sam's will have their own personality as well.
