

GOURD ART KIT

Gourdgeous Farm

Job's Tears & Gourd Necklace

Step 1. Clean gourd with soapy water and scrub with brush or steel wool. Let dry.

Step 2. Divide the Job's Tears into two even piles.

Step 3. String the sinew into the eye of the needle and tie the end onto one end of the jewelry clasp.

Step 4. The needle will go through the center of the Job's Tears which nature has pre-drilled for you. Each husk removed from the seed has left a soft core for beads.

Step 5. String half of the seeds.

Step 6. With a sharp tool, poke a hole into either side of the top portion of the Mini-Mini Bottle Gourd and string onto necklace.

Step 7. Now string the rest of the Job's Tears through the needle and onto the sinew.

Step 8. Tie the end of the sinew to the other end of the jewelry clasp.

Congratulations!
